

License Agreement

Welcome to KeepForest! By accessing or using our products or services, you agree to be bound by the terms of this End-User License Agreement (EULA). Please read the terms carefully before using our products or services. If you do not agree to the terms of this EULA, you are not authorized to use our products or services.

By installing any Keepforest product you accept the following license agreement.

Grant of License:

In consideration of the license fee ("LICENSE FEE") you paid (and for our FREE download packs), KeepForest grants a "MEDIA LICENSE" to you and your assignees (subject to the transfer limitations herein). The MEDIA LICENSE for this product is granted only to a single user. If you need more, special arrangements may be made on a case-by-case basis.

The usage of products (in particular samples, instruments, and presets) for the creation of a sound library or sample library, sample-based product, or other musical instrument is strictly prohibited. Individual samples, stems, sound sets, or audio loops may not be distributed (commercially or otherwise) standalone. Furthermore, these sound-based products provided by KeepForest, including Kontakt libraries, audio loops, sample packs, and stem files (collectively, the "CONTENT") may not be repackaged in whole or in part as audio samples, sound libraries, or sound effects. Use of a free edition of the products or their parts for commercial purposes is strictly prohibited.

This license is non-transferable and expressly forbids resale.

You are not allowed to install the CONTENT on a network server without contacting KeepForest and obtaining a Network license for each workstation served on the network. In addition, you may not:

- a. copy the CONTENT (except for making a backup copy on a second computer owned and used by you), disclose, publish, export, distribute, rent, lease, or sublicense the product;
- b. remove any KeepForest trademarks or copyright notices from the CONTENT;
- c. modify, translate, or create derivative works based on the CONTENT;
- d. use the product in a computer-based services business or publicly display the visual output of the CONTENT;
- e. transmit the CONTENT by audio, digital, or other electronic means or post the product on any file-sharing site.

The MEDIA LICENSE includes:

1. Mechanical rights

The right to re-record, duplicate and release the CONTENT as part of your product/production in whatever medium you choose (i.e. video tape, film, CD ROM, DVD, digital formats). This does not include the right to resell the CONTENT as a standalone product in whole or in parts.

2. Synchronization rights

The right to use the CONTENT as a soundtrack "synced" with visual images, or sounds as part of your product/production.

3. Public Performance Broadcast rights

The right to use the CONTENT as part of the public viewing or broadcast of your product/production, including but not limited to videos, DVDs, websites, podcasts, multimedia presentations, films, television, and radio.

The MEDIA LICENSE is granted worldwide and unlimited in time.

Users have the right to implement free editions of the products and/or only for non-commercial purposes

Scope of License:

All sound-based products provided by KeepForest, including Kontakt libraries, audio loops, sample packs, and stem files (collectively, the "CONTENT") are licensed, but not sold, to you by KeepForest for commercial, educational, and non-commercial use in any means and media now known or hereafter devised (e.g., videogame, radio, film and TV productions, audio/video post-production, interactive media, broadcast, online media, multimedia, or similar

productions, including physical and digital distribution of such productions and any promotion or advertising related thereto) that are produced by you during the TERM of this AGREEMENT worldwide (altogether: "PRODUCTION").

This license strictly prohibits the unauthorized incorporation of the CONTENT into any library (such as a sample instrument, sound effects library, stem files, or production music company's SFX tool kit) online or offline without our explicit written permission.

Additionally, you may not redistribute the CONTENT in any way, including but not limited to selling, trading, sharing, resampling, mixing, processing, isolating, or embedding into software or hardware, for the purpose of re-recording or reproducing it as part of any commercial or free library of musical and/or sound effect samples or articulations, or any system or device for playing back musical or sound effect samples. The use of the CONTENT for the purpose of training an AI is also strictly prohibited without KeepForest's written consent.

This license strictly prohibits the use of any part of the CONTENT on the motionarray.com platform.

Use of Stem Files:

The MEDIA LICENSE grants you the right to use elements from our stem files in your PRODUCTION, as long as they are deeply edited and cut up so that they are not recognizable from the original. The use of entire stem files from a single composition is not allowed, as this would violate the intellectual property of the original creators and fail to properly credit and compensate their work. We encourage you to get creative with our stem files and use them as inspiration for your own compositions. Remember to respect the terms of use and always deeply edit and cut up the stems to create something truly original.

Refund Policy:

All purchases are final and non-refundable. We are unable to accept returns on downloaded products. However, in rare cases, we may make exceptions to this policy at our discretion.

Termination:

This EULA will remain in effect until terminated by you or KeepForest. You may terminate this EULA at any time by destroying all copies of the CONTENT in your possession or control. KeepForest may terminate this EULA at any time if you breach any of the terms contained herein. Upon termination, you must destroy all copies of the CONTENT in your possession or control.
